We have reduced that stylish cloth short wrap, with raglan sleeves, long tail fronts, finished with balls, and bordered all round in long curl Astrakhan, that is catalogued at \$8.75, to \$4.50. It comes in both seal brown and black, and is a very becoming and fashionable shape.

D. CRAWFORD & CO.

They Touched Them.

We are working in harmony with you. You, for the clearest dollar's-worth you can; we, for a phenomenal business.

The bright side is before us both. It is turning out famously for us both, too.

These styles show what we mean by saying We'll make our store a help to you. We shall have other opportunities by and by.

Notice for yourself that it is not less the style than the price that is attracting the keenest critics of style to these \$5 Trousers.

Don't you see plainly that business can be lifted out of the humdrum?

Don't you see small profits may be made to pay?

Don't you see that Wanamaker's have made their store so well known that the best-dressed men in the city are as familiar with it as if we had had a shingle out for years? And how?

Look at the Trouzers and the price!

Wanamaker & Brown,
210 and 212 N. Broadway.

Many of our Winter goods are much lower in price, and buyers getting great bargains.

McNichols Once More.
THE ONLY HELP AT HAND.

Saving a penny and wasting a pound, is not the best policy, so I have found. My wife and I have scolded away. And made her self-mindful every day. The stove had an appetite big as a giant. But she had a heart as small as a mouse. So I slammed the door down, rattled the shovel, and said we had better go live in a hovel. "I've got a wife who's a pig, To blame me for not baking? Good chores cost money." Well, just let me tell you right that I don't try to cook any more upon that. You know that you can't draw a queen because she has a king's complexion. Oh, don't sit and stare at me, looking so smug, like a hen who's laid an egg and pecks by the week."—Jerusalem! That settled it!

My wife, as you know, is a bone agitator, and she's been driving me crazy.

"Every Saturday night, sir, I buy two good chickens. To lose them of course, and then the cream thickens."

You grumble whenever the ice bill comes in, and I do the same. That is hard to cook-dress and meat up together. Are trials to me every change of the weather.

When a fellow is pounded with facts, his feet are bound with iron bands. I knew it was time, all my wife had allured, "and I'm not going to be budged."

Like others, I feel I had got in a pickle. With only one way out—to go to McNichols. I said, "Well, we'll go to him, and he'll help us. There's nothing so good as the installment plan." "We're more bad tempers and sad gales in my family, than good ones. And we've got to pay the bills. The ice chest gave the kitchen a chill simply to look at it. And we've had ten times in cost already. Mine is a CHICKEN."

WASHINGTON.

PLAY IN THE PREPARATION OF THE TARIFF BILL.

Prospect of a Report on Washington's "Birthday."—The Telegraph Bills.—Mr. Blaine's Letters.—Gen. Sheridan's "tippee"—No Tickets Allowed.—Proceedings in Congress.

Telegraph to the Post-Dispatch.

WASHINGTON, D. C., February 16.—The statement that the tariff bill will be ready to be reported to the House by Washington's birthday did not appear to have been based on material facts. The legislative Bureau of the committee said to-day: "I don't know who authorized the statement that the bill would be ready for the House this month. I cannot say it will be in shape for reporting, certainly not for some time yet. We have had an enormous amount of material on file and we have compiled many statistics. In this time not a line has been drawn on the bill. We are doing the best that can be done under the circumstances."

Another member of the committee said: "There is a statement out to the effect that the House will have the bill in time to be engrossed in the preparation of a substitute bill, which is to be offered when the majority report is made. There is absolutely no truth in this. The Republicans are doing all they can to get the bill through. The Democrats are doing, and they will not be able to find out for weeks to come. It is not known when the bill will be ready to be reported before the bill of the committee is regularly reported."

As far as the prospects of some speedy legislation on the tariff is not particularly encouraging.

THE BLAIR BILL PASSED.

The Long Debate Over at Last in the Senate.

WASHINGTON, D. C., February 16.—The educational bill passed the Senate yesterday by the vote of 39 to 29. Senator Blair made a ringing speech in finally closing the debate. He declared that the opposition to the bill came from the Jesuits and he claimed to have read a letter addressed to a Senator begging him to defeat the bill. Twelve years ago, when a proposition was before Congress to appropriate \$100,000 to sectarian schools, he had seen nine Jesuits on the floor log-rolling to defeat the bill. He said that the opposition to the bill came from the North which from warm advocacy of the bill had become strangely silent. He mentioned the Chicago Tribune, the New York Sun and Times, the Boston Herald and Advertiser. Another instance of the opposition was the Liverpool interest. But Mr. Blair declared the North would see all through the juggling, and if they didn't see it, the South would. The gallery which would clear the galleys. Before the bill passed several amendments were voted down. Senator Pomeroy tried to add to the money in proportion to their population between the ages of 10 and 21; Senator Berry's bill to require each Governor to file with the Secretary of State a list of school monies expended the year before.

The Telegraph Bills.

WASHINGTON, D. C., February 16.—The Chairman of the House Committee on Commerce yesterday appointed a sub-committee consisting of Messrs. Haynor, Chairman; Wilson (Minn.); Phelan, Davis (Mass.); and Anderson (Ill.), to consider the pending bills for the regulation of telegraphic companies and the existing telegraph companies. Among the bills is one recently introduced by Mr. Glover of Missouri, placing the telegraphic companies under the supervision of the Interstate Commerce Commission, and authorizing the Commission to establish the same rules for telegraphing and to prevent discrimination.

Mr. Haynor has introduced a bill which a committee of the House of Representatives proposed to the Senate to construct and operate a new telegraph system under the jurisdiction of Government, to be submitted to be considered together, and a thorough investigation of the subject will begin at once. No witness will be examined unless by specific call. When the report is made last night, I am satisfied that we will speedily agree upon a measure that will meet with public approval. I do not believe the people are to be subjected to much longer the extortion to which they are subjected by the existing companies for these bills. No government should tolerate the present condition of affairs. Every competing enterprise has been absorbed and the Western Union monopoly has increased its capital four times the amount necessary to build a new system equally efficient."

Canal Improvements.

WASHINGTON, D. C., February 16.—The bills of Messrs. Hendon and Munn, of Springfield, creating a commission to supervise the construction of the Illinois and Michigan Canal and the lake improvements, etc., have been referred by the House Committee on Railways and Canals to a sub-committee composed of Messrs. Hayes, Hayes, Hayes, Cobb of Iowa, Cobb of Alabama, Plumb of Illinois, and Russell of Connecticut.

THE SENATE COMMITTEE.

The following named gentlemen were before the Senate Committee on Commerce to advocate the improvement of the waterways of the Mississippi River, the Illinois and the Mississippi: Daniel L. Shorey, H. B. Hurd, Edwin Lee Brown, J. C. Ambler, Secretary, represented the Illinois Chamber of Commerce; Harry B. Hurd, Charles B. King, William Cullen, A. G. Traged, representing the Peoria Corporation, and Mr. George W. Moore, of Chicago, a representative of Illinois. Their report is brief for the purpose of improving and maintaining continuous depth of water between Lake Michigan and the Mississippi navigable for the free passage of the largest Mississippi River steamers, and for the passage of small steamers and barges. The plan of way is to furnish a large and constant supply of water to the Illinois and Mississippi Rivers. Survey plans and sections may be made for channel improvements and for locks and dams in the bed of the Illinois and Desplaines rivers, and for the Illinois River, so that it may be navigable, not less than 100 feet in width and not less than fourteen feet in depth, and also for the Illinois River to be enlarged and located from Lockport north to Chicago of 100 feet in width, and not less than 20 feet in depth, capable of carrying not less than 600,000 cubic feet per minute, flowing at a rate not exceeding two miles an hour.

Bouleau on Blaine's Letter.

WASHINGTON, D. C., February 16.—Representative Bouleau says the newspapers have generally misquoted him as to his interpretation of Mr. Blaine's letter. "Mr. Blaine was in no way influenced to write that letter by an understanding of his health, for I know his health to be excellent." Mr. Bouleau only means the release of Mr. Blaine's friends from their obligation to support him in the convention elsewhere.

I did not say, and I will not say, that it will not be his party's candidate. The letter mentioned in the name will not be presented upon his authority, but I stand in the same attitude as to his candidacy to-night as I stood before the letter was written. The spirit of the letter was to stand near what is now the New York Central Depot."

No Tickets Allowed.

WASHINGTON, D. C., February 16.—Tuesday's order of Speaker Carlisle allowing the telegraph companies to continue business in the House corridors has been misconstrued as permitting the restoration of the "nickels," which were so summarily fired out last week. This is far from being true. The telegraph companies have to drive the legitimate branch offices out of the halls, but simply

to put a stop to the stock-brokering business on the very threshold of the House of Representatives. That is all that is needed to tell the Post-Dispatch correspondent last night: "No ticklers will be allowed in the halls and no leased wires shall be run in for any purpose whatever. The telephone company will simply be allowed to conduct a legitimate telegraphic business, offering no one and special services to the office except to those who are privileged."

Nomination by the President.

WASHINGTON, D. C., February 16.—The President sent to the Senate to-day the following nominations: Chas. G. Carick of New York, to be Solicitor of the Treasury; R. B. Wilson of Arkansas, to be Register of the Land Office at Dardanelle, Ark.; Edward G. Hollingshead of Dakota, to Register of the Land Office at Pierre, Dak.; Dr. John W. Scott of Kansas, to be Register of the Land Office at Laramie, Kan.

Fishery Negotiations.

WASHINGTON, D. C., February 16.—The Fish Commission signed a treaty last evening. It will be submitted to the President to-day and it is thought that he will advocate its discussion in an open session of the Senate.

The House.

WASHINGTON, D. C., February 16.—The Speaker was in the chair when the House met this morning.

The A. O. U. W. Agrees to Defy the Insurance Department—Election of Officers.

When the Grand Lodge of the Ancient Order of United Workmen met this morning in the Entertaining Hall of the Exposition, the first business presented was the report of the Committee on Insurance appointed to consider the necessity of complying with the assessment insurance law of the State. The bill, however, was introduced by the Chicago Tribune, the New York Sun and Times, the Boston Herald and Advertiser. Another instance of the opposition was the Liverpool interest. But Mr. Blair declared the North would see all through the juggling, and if they didn't see it, the South would. The gallery which would clear the galleys. Before the bill passed several amendments were voted down. Senator Pomeroy tried to add to the money in proportion to their population between the ages of 10 and 21; Senator Berry's bill to require each Governor to file with the Secretary of State a list of school monies expended the year before.

The Telegraph Bills.

WASHINGTON, D. C., February 16.—The Chairman of the House Committee on Commerce yesterday appointed a sub-committee consisting of Messrs. Haynor, Chairman; Wilson (Minn.); Phelan, Davis (Mass.); and Anderson (Ill.), to consider the pending bills for the regulation of telegraphic companies and the existing telegraph companies. Among the bills is one recently introduced by Mr. Glover of Missouri, placing the telegraphic companies under the supervision of the Interstate Commerce Commission, and authorizing the Commission to establish the same rules for telegraphing and to prevent discrimination.

Mr. Haynor has introduced a bill which a committee of the House of Representatives proposed to the Senate to construct and operate a new telegraph system under the jurisdiction of Government, to be submitted to be considered together, and a thorough investigation of the subject will begin at once. No witness will be examined unless by specific call. When the report is made last night, I am satisfied that we will speedily agree upon a measure that will meet with public approval. I do not believe the people are to be subjected to much longer the extortion to which they are subjected by the existing companies for these bills. No government should tolerate the present condition of affairs. Every competing enterprise has been absorbed and the Western Union monopoly has increased its capital four times the amount necessary to build a new system equally efficient."

On the question whether or not our order is exempt from the general insurance laws or the act of 1887, he gave leave to report that the committee had considered the question and examined all the decisions of our courts relating thereto and are unanimously of the opinion that the order is not subject to the general insurance laws of the State or the acts of 1887. The question resolves itself into this: Is the order a mutual, joint, or charitable association or society? If it is then we are certainly exempt. In determining this inquiry we will call attention to the fact that the order is not a mutual, joint, or charitable association or society, but is a benevolent and charitable organization.

We therefore respectfully recommend to the Grand Lodge that it do not incorporate under the laws of the State of Illinois.

Mr. Erwin realized the adoption of the resolution and expressed the opinion that Buffalo had better reduce the charges of her grain and flour to the market to induce other people to buy them.

He denied that the Schenectady & Ogdensburg Railway intended to run through the city, though there was a clause in the bill which would pass by the port of Buffalo and thence to Ogdensburg.

Mr. Erwin consented to action upon it being postponed for two weeks. Meanwhile the opponents of the bill will hear.

RAIDED BY THE SCALPERS.

Heavy Cuts on Chicago Passenger Business—Northwestern Troubles.

The scalpers made something of a raid yesterday on the passenger business between Chicago and St. Louis. Tickets were offered at all of the brokers' offices at \$3.50 to Chicago and a land-office business was the result.

This reduced rate, at less than one-half of the regular rate, was made possible by the excursion rates to Springfield from St. Louis and Chicago for the Grand Army Reunion at Springfield, and \$1.50 from St. Louis to Springfield and \$1.00 from Chicago to Springfield.

It is the scalpers who bought the surrounding areas of the city, and the grading of an occasional street over low ground gave the surrounding area a broken appearance. At other points the grading of streets left the nation in a state of confusion fifteen feet above grade, and the prospective buyers of real estate retarded many a buyer from purchasing lots in that vicinity. For these reasons it was very difficult to dispose of the property at any price, until a comparatively recent date, within which time the rapid growth of the city has created a demand for many of the old waste places.

One of the most striking examples is the Sicker tract, a body of ground given to the city by a man named Sicker, who sold it to the Scalpers. The Scalpers, who had the whole of the property hawked all over the market for a purchase at \$40,000, had to wait for a long time for a buyer.

Scalpers who bought at those prices have sold out for as much as \$35 per front foot. Within the last year some handbills have been issued to the Scalpers, and the various lot owners combined in a contract to have all the high land cut down and graded to a level, and will be done nearly completed in a few days after the weather permits. The Scalpers will be compelled to resume operations. It has only cost about \$8,000 to accomplish this change, and the result, even now, is that the Scalpers are still holding their property, and the Scalpers are still holding their property.

There was a big block of tickets on sale here, and as the tickets were issued without limitation as to the place of destination, the Scalpers had to pay for them.

The piazza was only of short duration, however, as the sale ceased yesterday evening, which is a cut of \$1.50 on the regular rate, or yet nothing has been done openly by either the Scalpers or Chicago & Alton, but the situation is extremely uncertain and is working toward a break-up.

LIVE-STOCK STOCK TRAILER.

Mr. Rogers, a member of the Chicago & Alton, returned to-day from a trip through Texas, and he says that the prospects are in favor of a good market for live-stock trailers in St. Louis. He says the market is good.

Mr. Rogers was engaged to represent the Scalpers in the grand jury of St. Louis, James Young of Kansas City, and Frederick Averill of Kansas City, who were on the grand jury, and he says that the Scalpers will be held responsible for the trial of the Scalpers.

The indications for twenty-four hours, commencing at 8 p.m., to-day, for Missouri are: Warmer, fair weather; light to fresh winds, generally southwesterly.

Our advice to Councilman FRANK is, "Stick."

THE Allison boom should be regarded approvingly by Western men.

THE statesmen who are fighting against honest registration are fighting against fate.

THE inaction of Congress indicates that some Democratic Congressmen are afraid of their principles.

DOES President ALLEN of the City Council expect to run for Mayor as a defender of election frauds?

SEVEN thousand names struck off from the bogus list of voters and only two genuine names found in the lot.

RECODER WILLIAMS and his revisers continue erasing the fraudulent registrations. More power to their erasers.

WE are preparing for a large line of real estate advertising in the next issue of our booming SUNDAY POST-DISPATCH.

THE Tory leaders are finding out that their man Balfour has been overdoing his task in Ireland, and some of them want to call a halt.

Nobody can accuse the Mayor of official intermeddling with the Municipal Assembly on the subject of the appropriations.

THE votes of HABSTAD and PAYNE on the Blair bill show that a plutocrat Democratic Senator is very much like a plutocrat Republican Senator.

JAY GOULD will land in Florida—instead of New York. Doubtless he wants to learn more about that little Grand-jury diversion before venturing into the metropolis.

In the appropriation bill fails to pass the responsibility of it rests on the men who made its passage depend on the recognition and perpetration of fraud in the registration.

MR. BLAINE has a lively knowledge of the difference between "will" and "shall." This was shown when he said "my name will not be presented," instead of "shall not be presented."

AS FAR AS the newspapers are concerned, the POST-DISPATCH is making its fight against corrupt registration single-handed. The honest voters, however, are unanimously with us.

BISMARCK's peaceful speech is accelerating the westward movement of Russian troops. The Russians know how to construe speeches better than some Americans know how to construe letters.

It is useless to attempt to start a boom in opposition to the President's remonstration. The attempt of the discredited Butcherites in New York to do something of the kind has proved a melancholy failure.

THE convicted election forgers are in hearty sympathy with the Hendricks Association, with the House of Delegates and with the Comptroller in their opposition to clean and honest registration.

DELEGATE GIFFORD of Dakota says that if he can't get stochard with division he doesn't want it at all. That is, if he can't get four more Republican Senators he will not compromise on two. But Mr. GIFFORD should not get excited. He will

get stochard without division, whether he likes the idea or not.

IT is now charged, though not on the best authority, that Gen. SHERIDAN was born in Ohio. It should be added, however, that the General is not responsible for this, and, moreover, he lived it down long ago.

THE people who are opposed to the work that Recorder WILLIAMS is doing should be made to answer plainly whether they are opposed to the erasure of fraudulent names from the registration lists. If they want fraudulent registration they should regularly will confer a favor upon us by reporting the same to this office by postal card.

THE DEAD BODY OF A CHILD CUT OPEN TO RECOVER SILVER TUBE.

POOR MORRIS RABIL and His Wife Give Up Their Last Dolor to Dr. Nammack for Attendance on Their Only Child.—The Physician Insists Upon an Autopsy to Secure Two Tubes Valued at \$10.

By Telegraph to the POST-DISPATCH.

NEW YORK, February 16.—There was buried in this city yesterday the body of a boy about a year and a half old, the offspring of Morris Rabil and wife, who came to this country from Germany about a year ago. The couple are young and poor. The child was born sick with croup they hesitated to call in a physician. The child grew worse, however, and last Sunday morning Rabil called his employer to go and see it. This Mr. Rosenstein did, and he told the father that he should procure medical aid at once. At his employer's suggestion, Rabil called Dr. Charles E. Nammack, who in addition to attending to a considerable private practice is president of the Police Department in the Seventh Precinct.

Dr. Nammack visited the little sufferer Sunday morning and prescribed for him and in the afternoon his brother, Dr. W. H. Nammack, called in his stead, and continued in charge of the patient until he died, making five visits in all. The first call on Monday was about 4 o'clock in the morning. The doctor went in response to a request from the father, as the child had grown much worse. During the visit the physician inserted a small silver tube in the child's windpipe, through the mouth, to prevent suffocation. When a subsequent call was made Dr. Nammack found that the child had swallowed the tube, and about 4:30 o'clock in the afternoon, when the last call during the child's life was made, it was discovered that the second tube had also disappeared. At this time the physician said the child was dying, that there was no longer possibility of saving its life and he was moved to

RECOVER HIS SILVER TUBE.

Mr. Rosenstein was appealed to by the physician's wife, who entreated him to do all he could to recover the tube, as she knew that if he could recover the tube he could put the child in through the nose and mouth and save it.

Two physicians who did not vote, COCKRELL and GORMAN were paired against the bill with EDMUNDS and SHERMAN, leaving three Democrats and one Republican not counted either way. Of the sixteen Democrats who voted for the bill all were from Southern States except two, PAYNE of Ohio and HABSTAD of California. The Mississippi and Arkansas Senators, and others perhaps, voted for the bill under instructions from their State Legislatures, and gave it nothing but the cold and formal support of their votes. It has been opposed this time by a number of Senators who supported it before, and if not defeated in the House, as is probable, is now plainly too weak to pass either house, over the veto. So we may bid a long farewell to the Blair bill.

EXPULLED FROM BERLIN.

The Second Mrs. Frederic De Belleville Who Figured in a Scandal.

By Telegraph to the Post-Dispatch.

NEW YORK, February 16.—The Berlin authorities have just rendered a final decision in the case of Mrs. Frederic De Belleville, temporarily shutting her out of Berlin on the score of her being an "objectionable foreigner," keeping a notorious house on the Wilhelmstrasse. De Belleville is a well-known actress who appeared in minor roles at the Thalia Theatre several years ago. De Belleville married her second husband, De Belleville, a congenital matrimonial duffer, after his wife with Edith De Belleville, the first wife, whom the actor met and married in America, had left him. She was the ground of De Belleville's unfaithfulness with the Thalia actress and collected \$30 a week from her in addition to her regular remittance in the well-known Vanderbilt-Alten divorce case. After some time Mr. De Belleville's second marriage, which was never a legal one, as De Belleville's divorce from his first wife had not been completed. She had never become, therefore, an American citizen, and so could not be legally constituted a citizen of the United States had ever pronounced the marriage invalid.

SURRENDERED HIS SON.

A Strange Scene Witnessed at the Four Courts This Morning.

The strange spectacle of a father surrendering his son on his bond was presented this morning at the Four Courts. Bryan Hunt, the well-known First Ward politician and horseman, was the father. His son Daniel, a young man, 22 or 23 years of age, was arrested some time ago on a charge of embezzling \$10 from Louis Knorr, for whom he had worked. It was alleged that on April 1, 1886, he had collected a sum of \$300 and earned it by his own work. He made no defense, but admitted the money and keeping it, but claimed that he had an urgent need for the owner of the cash to pay him \$5 as his bond. Hunt, however, had some words with his father. The latter then went to the son, the son to the court, and kept pulling the head of his young man. Then the father let loose, visited the Four Courts, and asked to be released from his bond. If a Deputy Sheriff would accompany him to his house, No. 116 South Ninth street, Hunt said he would do so. Hunt's son was sent down, took the young man out of bed and brought him to the Four Courts. Hunt offered no resistance, but vehemently urged the release. His son was highly drunk, and had some words with his father. The latter then went to the son, the son to the court, and kept pulling the head of his young man. Then the father let loose, visited the Four Courts, and asked to be released from his bond.

If a Deputy Sheriff would accompany him to his house, No. 116 South Ninth street, Hunt said he would do so. Hunt's son was sent down, took the young man out of bed and brought him to the Four Courts.

Hunt was obliged to leave the courtroom, and Carkeek forgot himself and grabbed Muldoon's coat. Carkeek then pulled Muldoon's coat over his head, and the two children who are insane.

Carkeek advanced to the footlights and said: "I have no cause to be afraid except of the police and the sheriff." He walked away a few steps and returned to say: "But, gentlemen, if you have such a life as this, better off under lock and key."

In our crowded civilization there is still room for all; and such rooms are advertised in the real estate advertisements of the SUNSET HOME.

THE "BOOKIES."
A REACTION THAT PROMISES TO CUT DOWN THEIR FAT PROFITS.

Another Year Will Probably Find the "Turf Alliance" Without a Bit to Gain on Capt. Brown. Prepared to Substantiate His Charges—President Charles Green's Views on the Subject—St. Louis Will Have Bookmakers for Another Year at Least—Sporting News and Gossip.

ASTON on the heels of the sensational stories of the year made the million-dollar turfman, Capt. S. A. Brown of Pittsburg, against the bookmakers, and his further threat to expose certain crooked work in the Kentucky Derby, comes the denial of his statements from that quarter and a demand that he make the affidavits on the question promised by him in case they were needed.

Capt. Brown announces his willingness to be good as good as his word and bring out the proofs of his charges.

Local turfites have been wonderfully exercised over the terms applied to them by Capt. Brown, which, it will be remembered, were more forcible than choice. Speaking of Capt. Brown's charges against the bookmakers, President Charles Green of the St. Louis Fair Grounds Association said to-day: "Capt. Brown's charges against the bookmakers are rather strong and somewhat broad. How far right he may be in his charges I cannot say. I do not remember whether I was present when the Derby of '86 was run or not and therefore cannot say whether Capt. Brown's charges are well founded. There is some sense in the movement that he is right, but I do not know about that broad statement." "Do you think the associations would be better off were the bookmakers thrown out?" "Financially, certainly. At present they are getting as much money for the privilege of betting on the tracks, and in order to pay the money they do pay, it is necessary that they take in a good deal of money. Of course the Association could do better by reserving the betting privileges for its own special employees at salaries to make the betting, and thus save every dollar that the association would go to the bookmakers. I notice that some of the Association and racing clubs in the East propose to operate on this very basis, and I believe it will doubtless prove a successful venture."

"In what way does the present system of bookmaking affect the honesty of a meeting?"

"Financially, certainly. At present they are getting as much money for the privilege of betting on the tracks, and in order to pay the money they do pay, it is necessary that they take in a good deal of money. Of course the Association could do better by reserving the betting privileges for its own special employees at salaries to make the betting, and thus save every dollar that the association would go to the bookmakers. I notice that some of the Association and racing clubs in the East propose to operate on this very basis, and I believe it will doubtless prove a successful venture."

"What is the result of the present system of bookmaking among the honest of a meeting?"

"Well, I do not think it affects it to any alarming extent just now. I think the honest bookmakers will be always more or less danger of crooked racing, and this is so even on the best and squares track in the world. I do not think the public, in the betting, the public would have confidence in the sport and feel assured that the racing was honest throughout."

Rowell and Albert.

NEW YORK, February 16.—The Turf Field and Farm says: "A gentleman who has backed Rowell in nearly all of his races has left \$1,000 at this office to match the English pedestrian against Albert. The stakes of the meeting will be \$1,000 each, and the Association will decide on the same day as the race."
